

Wall of Colour Jacket Schematic

Follow these directions to match stripes on the collar and at the shoulder seams of your sweater.

Left Collar (C in diagram): Knit the first 80 rows in your chosen stripe pattern.

Left Front and Back: Knit the left front 84 (120) rows in your chosen stripe pattern. After binding off and casting on sleeve stitches (D in diagram), knit the next 84 (120) rows in the reverse of the exact striping pattern (see stripe/reverse striping example in diagram).

Back Neck (F in diagram): Knit 48 (50) rows in the center in your chosen pattern

Right Back and Front: Knit the next 84 (120) rows in your chosen stripe pattern. After binding off and casting on sleeve stitches, knit the exact striping pattern in reverse for the next 84 (120) rows. If you would like the left and the right sides of the sweater to be exactly the same (mirror images), knit the right back in the same pattern as the left front and the reverse on the right front the same as the left back.

Right Collar (C in diagram): Knit the last 80 rows in the reverse order of the striping pattern that was used on the left collar (see collar stripe/reverse collar striping example in diagram).
